Plastic, Fiberglass & Stainless Steel Fabrication Services

Over 30 years of custom fabrication sales, design and manufacturing. Servicing a variety of industries.

QUALITY PRECISION CUSTOM FABRICATIONS INCLUDE:

- Custom FDA, USDA, Pharmaceutical and Semiconductor Applications
- Consoles, Control Panels, Valve Boxes and Plumbing Cabinets
- Custom Designed Chemical and Sanitary Tanks, Hoppers and Vessels
- Storage Tanks and Fitting Modifications
- Plumbing Manifolds and Sub-Assemblies
- Pipe Headers and Double Containment
- Custom Troughs and Leak Containment Trays
- Tank Liners (*Rigid and Flexible*)
- Tank Stands, Gratings and Platforms
- Pump Skid Assemblies (Plumbing and Controls)
- Neutralization and Waste Treatment Systems
- Laboratory Equipment
- Exhaust Systems, Dampers and Custom Transitions
- CAD Drawing Capabilities Available

HPI Custom CNC Router-Cut & Fabricated Cabinet

HPI Extrusion Welded, Internal Steel Girthed & Double-Containment Fabricated Tank

Experienced in Plastic Thermo-Welding (Rod & Extrusion), Solvent Welding, & CNC Router Machining and Heat Forming of the following materials:

**PVC ♦ CPVC ♦ POLYPROPYLENE ♦ POLYETHYLENE ♦ PVDF ♦ KYNAR®
HALAR® ♦ TEFLON® ♦ ACRYLIC ♦ PLEXIGLAS® ♦ LEXAN®
(Including Fire Retardant & FM 4910 Rated Formulations)**

Call us today for the solution to your fabrication requirements. 1-888-733-2832

HPI Custom Fabricated Console Tank Line

HPI Processes Stainless Steel Fabricated Tank Station

Plastic Plumbing Fabrication

Total plastic material fabrication capability and expertise, which enables our ability to offer reasonable precision fabrication pricing for the following plumbing/piping requirements:

- National tapered & straight threaded, solvent welded and flanged connection piping.
- Socket weld, butt weld, Infra Red weld, BCF weld and electro fusion-welded piping.
- Flare tubing and fitting connection plumbing.

Stainless Steel Fabrication

Through partnership with another affiliated company, we offer competitively priced stainless steel and steel fabrication capability, for a variety of application requirements, similar to our plastic fabrication capabilities.

Field Fabrication Services

HPI Processes offers the additional capability of field fabrication welding and on-site installation services. Providing a total *turn-key* solution to your fabrication requirements

Emergency Services

HPI Processes makes our expert fabrication and thermo-welding capability available to you, to perform necessary repairs, reducing costly down time, simply through a call. On-site welding, or extrusion welding of leaking tanks, fittings, and pipes, or the provision of temporary liners, can remedy the production stoppage in minimal time.
