

Treat Your Wastewater for Pennies!

Compact Batch Treatment Wastewater Treatment/Recycling System

For a compact, quick and affordable solution for the treatment of smaller batches of waste water there is no system better than the CBT system.

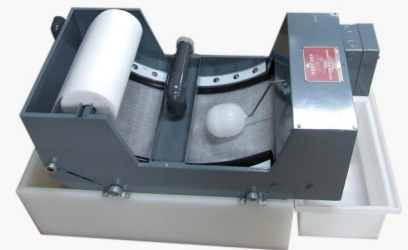

With the ability to handle 30, 60, or 100 gallon batches, the CBT System offers the same top quality of treatment as all HPI machines in a condensed and mobile form.

Typical Applications

| Types of Industry | Waste Streams |
|------------------------------------|---|
| General Metal Working | Cutting and grinding oils, Water soluble coolants. |
| Metal Finishing, Polishing | Burnishing, vibratory, deburring effluent. |
| Metal Fabricators | Parts washing effluent. |
| Rental and Repair Centers | Steam cleaning, pressure washer |
| General Industry | Mop water, compressor condensate, oils, metals, and suspended solids. |
| Printing, Screening, Paint Coating | Inks, latex, solutions. |
| Die Casting | Die Lube, quench pits, machine run off. |
